

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1-16. (Canceled).

17. (New) A method comprising:

providing a removable card, the removable card having a memory having a first personal access number and capable of storing a plurality of telephone numbers associated with an owner of the removable card;

inserting the removable card into a radio unit;

the radio unit transmitting the first personal access code to access a wireless network;

the wireless network receiving the first personal access code and transmitting a second personal access number to the radio unit, the second personal access number different than the first personal access number; and

the radio unit transmitting the second personal access number to subsequently access the wireless network.

18. (New) A radio unit comprising:

a removable card having a memory having a first personal access number and capable of storing a plurality of telephone numbers associated with an owner of the removable card; and

a transceiver transmits the first personal access number to a wireless network to access the wireless network, the transceiver receives a second personal access number different than the first personal access number, and the transceiver transmits the second personal access number to subsequently access the wireless network.

19. (New) A radio unit comprising:

a removable card having a memory having a first personal access number and capable of storing a plurality of telephone numbers associated with an owner of the removable card;

means for transmitting the first personal access number to a wireless network to access the wireless network;

means for receiving a second personal access number different than the first personal access number; and

means for transmitting the second personal access number to subsequently access the wireless network.
